Good Afternoon Sheriff Marcoux;

Please be advised that we have received and reviewed the quote provided by ELSAG NA, the vendor that will be providing you with a license plate reader for your organization. Attached is the quote. In order to move forward with purchasing this equipment, a sub grant agreement is required. Attached is the application and budget detail worksheet. Please complete these forms and return to my attention. Once received, a sub grant will be issued.

Also, per Capt. Reinfurt's e-mail dated 8-February-2011, the LPR will capture data and be stored on servers (DPS, Local Departments). In an effort to ensure that civil rights and privacy policies are maintained, we are asking each department to adopt a policy that addresses these concerns as well as agree to the VIBRS policy on storing data. The documents were attached in the Capt's e-mail and are being vetted by working groups. These policies will ensure that LE follows standard protocols in protecting civil rights and at the same time protected itself if challenged. Currently VIBRS is reviewing one document as it relates to the storage of this data on DPS server. The second policy relates to the conduct of the department to ensure that this data is not misused in violation of any standards relating to civil rights. The department policy being reviewed was created by IACP and has major support across the country. Capt Reinfurt asked that you review and advise if there are any issues you may have in your department adopting/agreeing to these documents. Please advise if you intend on adopting these policies.

Please be advised that you must not order any equipment until you receive a fully executed subgrant agreement.

Thanks and let me know if you have any questions.

Sincerely,

Jason E. Gosselin
